

FREE 1 DAY CPD COURSES

in cone penetration testing, geophysics
and ground investigations

Gain an appreciation of how CPT geophysics, drilling and sampling are used for:

- Geo-environmental investigations
- Obtaining geotechnical parameters for foundation design
- Depth to bedrock, utilities and UXO
- Highways, rail and airport investigations
- Building and structural applications

Courses cover:

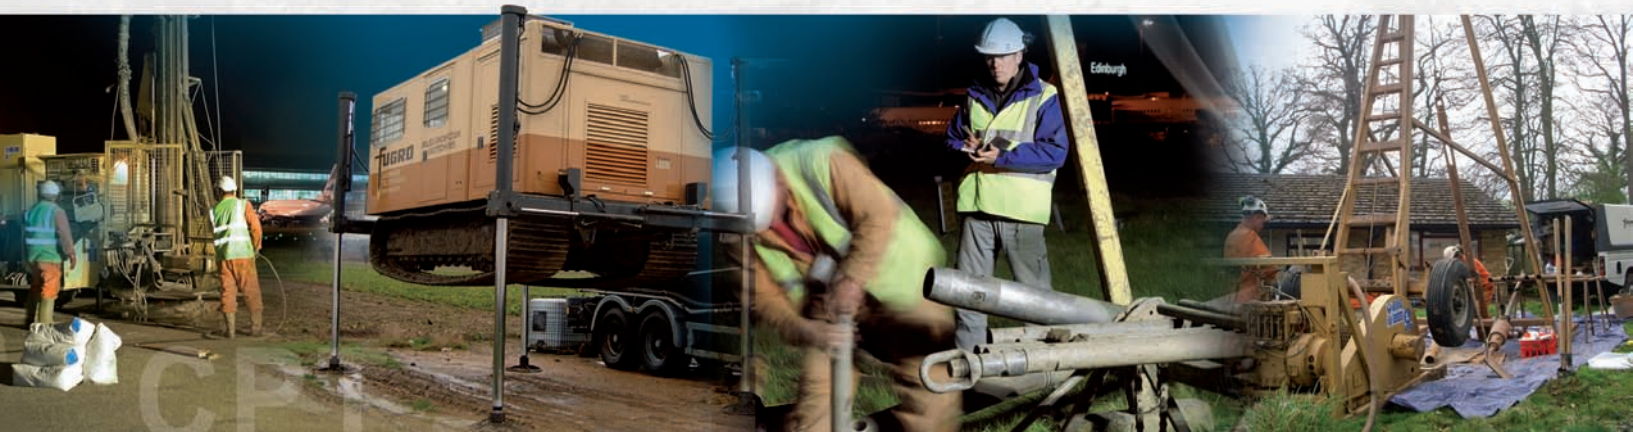

Cone penetration testing (CPT)

How does CPT work?
How to make use of CPT data in geotechnical and geo-environmental investigations – includes a demonstration of various cone types, geophysical downhole logging and core-scanning.

Geophysical surveys

How and when to use geophysical methods for brownfield sites, rail, road, structural and geo-environmental investigations – includes a demonstration of techniques such as Ground Penetrating Radar, resistivity and magnetometry.
